Vision

HIGH QUALITY, COMPETITIVE PRICES

Introduction

Since 1995, Sungkwang Optic has been a producer of microfiber cleaning clothes and spectacle cases.

With more than 20 years of expertise and experience, Sungkwang Optic is recognized as a leader of its field in Korea. We have more than 50% market share in Korean eyewear retail stores.

We are now seeking to broaden its area of business to the greater world outside Korea.

We can be partners to support your marketing.

**AP BLACK**

- Weight : 140gsm
- Denier : 50D/48F

**FRAGRANCE CLEANER**

- The fragrance cleaner contains fragrance capsules containing phytoncide, so you can feel the fragrance after use. There are flower and aromatic in scent.

By incorporating the fragrance ingredient into the microcapsule and bonding it to the lens cleaner, the microcapsules burst due to the friction when the lens is cleaned with a cleaner, and the fragrance is spontaneously emitted. Also, when the cleaner is not used, the fragrance is encapsulated in the capsule, so that the fragrance component is not volatilized and is stored for a long time, thereby improving the reliability of the product.

**ANTI-BACTERIA**

- Anti-bacterial cleaners are very effective against disease-causing pathogens but extremely safe for the human body.
- It contains no harmful chemicals that cause skin or eye irritation.
- It has excellent sterilizing effect and can be used anywhere.
